

## What is new in 2024?

The **Updated 2024 Medicare Physician Fee Schedule** includes expanded Remote Care Management for Federally Qualified Health Centers (FQHCs) and Rural Health Clinics (RHCs).

- **Expanded Reimbursement:** FQHCs and RHCs can now bill Medicare for RPM, CCM, behavioral health, and more.
- **Increased Accessibility:** More patients can access remote care, improving overall healthcare quality.
- **Multiple Billing Opportunities:** Providers can bill for two remote health monitoring services under the general care management code G0511, at a rate of \$71.68 per patient per month.
- **Care Design for FQHC and RHCs:** With experience serving FQHCs and RHCs, MD Revolution can assist you in expanding your current program or building a new remote care program. We offer multiple care models, and work with you to tailor a program that fits your patients and your practice.

## What you need to know about the Reimbursement rules

- **Start Date:** January 1, 2024.
- **Who It Affects:** FQHCs and RHCs for remote services.
- **What's Now Covered within CPT G0511:**
  - **CPT 99454:** Payment for using RPM systems that send health data. Patients need to send data for 16 days in a month.
  - **CPT 99457:** Payment for staff spending 20 minutes managing RPM care, including talking with patients.

## Reimbursement for Remote Therapeutic Monitoring (RTM)

- **98976:** For respiratory monitoring.
- **98977:** For musculoskeletal system monitoring.
- **98980:** For the first 20 minutes of RTM care.

*FQHCs and RHCs can bill multiple times per month for the same patient, as needed.*

## Enrollment Services Under General Supervision

- **Rule Change:** Remote enrollment in care management programs is now allowed permanently.
- **Benefit:** More patients can join remote care programs.
- **New Rate:** Reduced from \$77.24 to \$71.68 in 2024.
- **Overall Benefit:** Despite the rate drop, the ability to receive reimbursement for more services leads to better care and the potential for increased overall revenue.

## Why RPM Now?

- **Timely and Accessible:** RPM has come a long way. With advancements in intuitive technology, **connecting patients with clinicians has never been easier** or more user friendly.
- **Meeting Current Health Trends:** As patient health issues evolve, RPM offers a way to provide consistent, engaging, and quality care remotely.
- **Financial Benefits:** New changes in Medicare fee schedules make RPM a financially viable option, opening new revenue streams for healthcare providers.

## How Does It Work?

- **Flexible Solutions:** We offer multiple care models to fit your needs. Whether you need a robust technology engagement solution for your own clinicians, or you prefer our full-service technology plus health coaching team to augment your staff, MD Revolution designs care around your practice.
- **Expert Implementation:** Benefit from our proven track record in successfully rolling out over 400 RPM programs for over 150K patients in large practices and health systems since 2011.
- **Comprehensive Support:** We offer all around support, from system integration to staff training and patient enrollment.
- **Enhanced Patient Access:** With our portfolio of remote care solutions we provide high touch, quality care to patients in the rural and underserved communities you serve.

## MD Revolution Technology and Integrations

- **Technology and Services:** We offer connected devices and engagement systems for effective RPM, including two-way communication and smart alerts.
- **EHR Integrated:** We are fully integrated with your EHR to streamline your workflows.
- **Forward Thinking Advantage:** We stay ahead, aligning with the new Medicare rules and keeping you current as healthcare evolves.

## MD Revolution is here to help

MD Revolution is the leader in a full array of curated **Remote Patient Management solutions for large practices and health systems**. Our solutions include Remote Patient Monitoring (RPM), Chronic Care Management (CCM), Transitional Care Management (TCM), Annual Wellness Visits (AWV), Behavioral Health Integration (BHI) and Care Program Design.

We offer a **unique solution-neutral approach**, allowing healthcare providers to choose the technology and services that best fit their needs. Our expertise lies in **implementing effective RPM solutions** for improved patient outcomes and strong ROI. We are committed to collaboration, aiming to **enhance patient care and business results**.
